

ENVIRONMENTAL EDUCATION

for children and grown-ups

Together we explore and experience nature: through games, tours and workshops. Our children's groups **BUNDspechte** and **Waldgeister** gather in the city forest in search of a little wilderness. We invite youngster and older ones to join the group **"Auwald für alle"** (Alluvial forest for all) and get closer to nature in the alluvial forest of Leipzig.

Upon request, the BUND Leipzig also offers excursions for elementary school groups and events for children's birthday parties.
